

Quarantine/ Isolation Policy on michigan.gov 3/18/2022

Isolation

Any individual who tests positive for COVID-19 and/or displays COVID-19 symptoms (without an alternate diagnosis or negative COVID-19 test) should isolate regardless of vaccination status:

- Isolate at home for the first 5 days (starting with the day after symptoms began or day after test was taken for those without symptoms); and
- If symptoms have improved or no symptoms developed, return to normal activities, while wearing a well-fitted mask, for the next 5 days to protect others.

AND

- If individual has a fever, stay home until fever free for a period of 24 hours without the use of fever reducing medications before returning to normal activities while wearing a well-fitted mask, until the 10-day period is complete.

Quarantine

• Individual is exposed to someone who is positive for COVID-19 and:

1. Exposure is to a personal/household contact*:
 - Conduct symptom monitoring for 10 days; and
 - Test at least one time if possible 3-7 days after exposure and if symptoms develop; and
 - Wear a well-fitting mask for 10 days from the date of last exposure to protect others (home quarantine is an alternative for those who are unable or unwilling to mask); and
 - Avoid unmasked activities or activities with higher risk of exposing vulnerable individuals** for 10 days from the date of last exposure
2. Exposure is to other type of contact (from a community, social or work setting)
 - Conduct symptom monitoring for 10 days; and
 - Test if symptoms develop; and
 - Consider wearing a well-fitting mask around others for 10 days from the date of last exposure to protect others. At a minimum, wear a mask in settings with higher risk of exposing vulnerable individuals *Personal/Household contacts include individuals you share living spaces with, including bed

Questions or concerns can be directed to the front desk by phone, email, or in person. We appreciate your support and understanding.

Thank you,
